TOBACCO-FREE COMMUNITY FORUM

EDUCATE. ENGAGE. EMPOWER.

Join us as the Poe Center and our partners continue to move the needle and make a healthy difference in the lives of Wake County residents. At the first Tobacco-Free Community Forum, the Triangle community imagined the possibilities of a tobacco-free community.

We invite all to the second Tobacco-Free Community Forum. The purpose of the forum is to educate, empower, and engage.

Hosted at Southeast Raleigh High School, the youth-led forum will feature an expert-led review of current trends and a panel discussion to educate attendees on the impacts of tobacco and the policies that facilitate tobacco-free environments. Panelists will include youth, community, municipal, education, housing, and business leaders. Small group breakout sessions will provide opportunities to discuss strategies to reduce youth tobacco use and to empower communities in the solution.
