Did You Know?

Unhealthy lifestyles and physical inactivity cost the State of North Carolina an estimated **\$57 billion annually** in avoidable medical expenses, workers compensation claims and lost productivity. *(Tipping The Scales, June 2008)*

The **Alice Aycock Poe Center for Health Education** charges visitors a nominal fee to attend Poe's programs. All guests are welcome to play at our adjoining PlayWELL Park and experience life inside the human brain at Poe's Cranium Connection-making the Poe Center an ideal field trip destination!

The Poe Center has determined that curriculum provision costs us between **\$12-15.00 per student** depending on the specific program.

Our vision is that ALL North Carolina children and youth become healthy adults. In fulfilling this vision, the Poe Center recognizes that even a nominal fee can be challenging for many school groups and families. **Therefore, we rely on your ongoing support to be the valuable resource our schools and communities have grown to expect. Your generous gift will provide programming to positively impact the lives of our children.**
