

girl talk

a workshop for mothers and daughters

*Join the Poe Center
for fun, informative mother-daughter time!*

Girl Talk addresses the timely topic of adolescent growth and development and the physical, social and emotional changes that girls experience during puberty. 3-D theater exhibits, hands-on activities, movies and candid discussions help moms and daughters explore a range of topics from the workings of the reproductive system to the menstrual cycle to feminine hygiene protection & more. Girl Talk has been specifically designed with activities that foster and encourage open mother-daughter communication.

April 21, 2018
