

# Drug Use Trends Among U.S. Teens

## Monitoring the Future 2020 Survey Results

Monitoring the Future is an annual drug use survey of eighth, 10th and 12th grade students conducted by researchers at the University of Michigan, Ann Arbor, and funded by the National Institute on Drug Abuse.

More than **11,800 students** from **112 schools** across the United States participated in the 2020 survey.\*

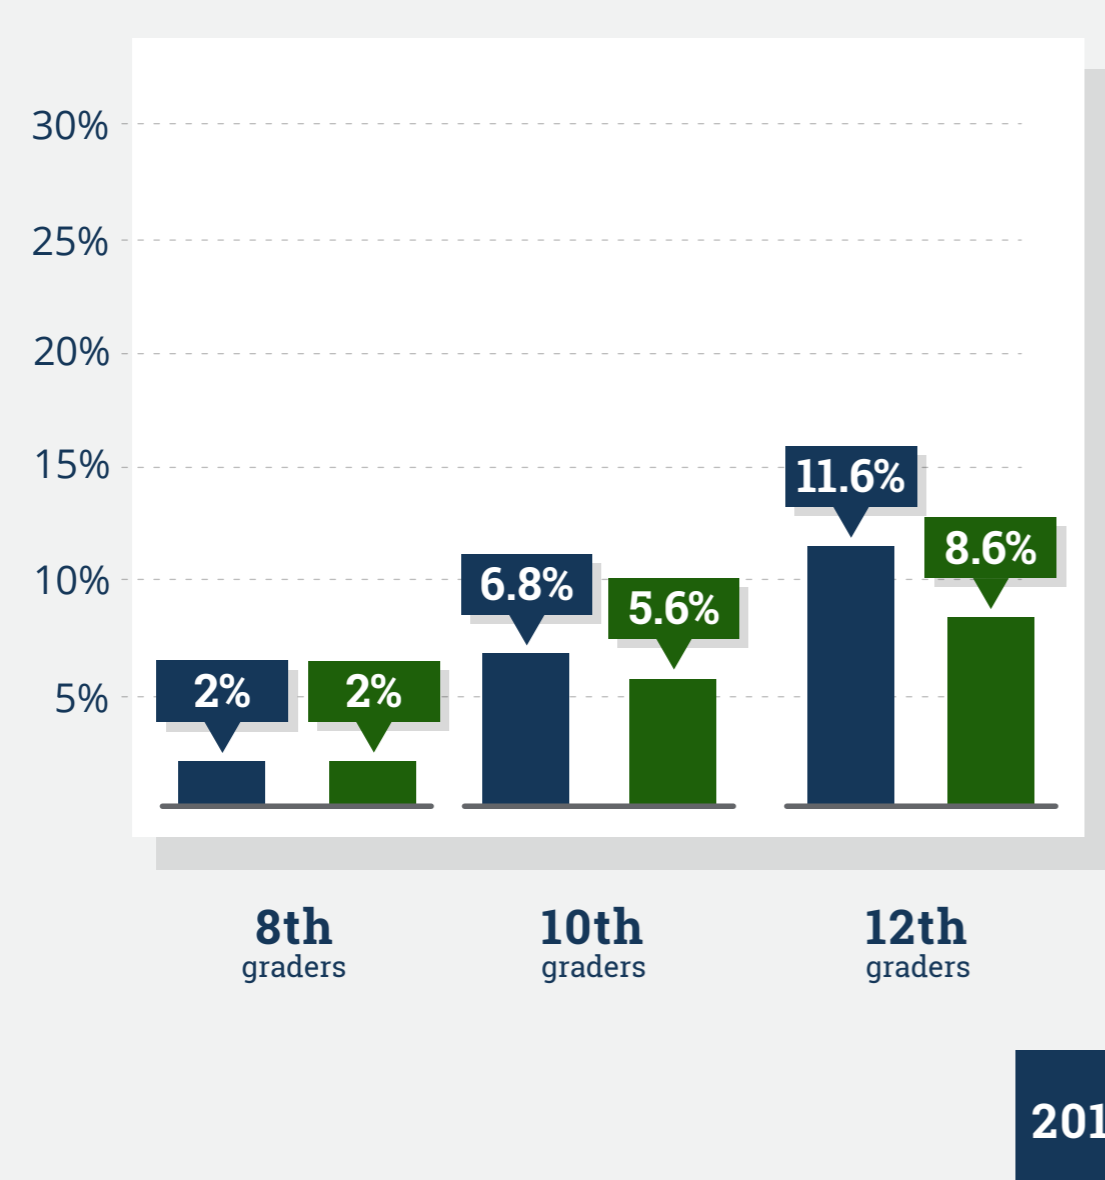

\*Data collection stopped prematurely due to the COVID-19 pandemic. Completed surveys represent about 25% of the size of a typical year's data collection. However, results were gathered from a broad geographic range and were statistically weighted to be nationally representative.

### Surge of Nicotine Vaping Levels Off, but Remains High

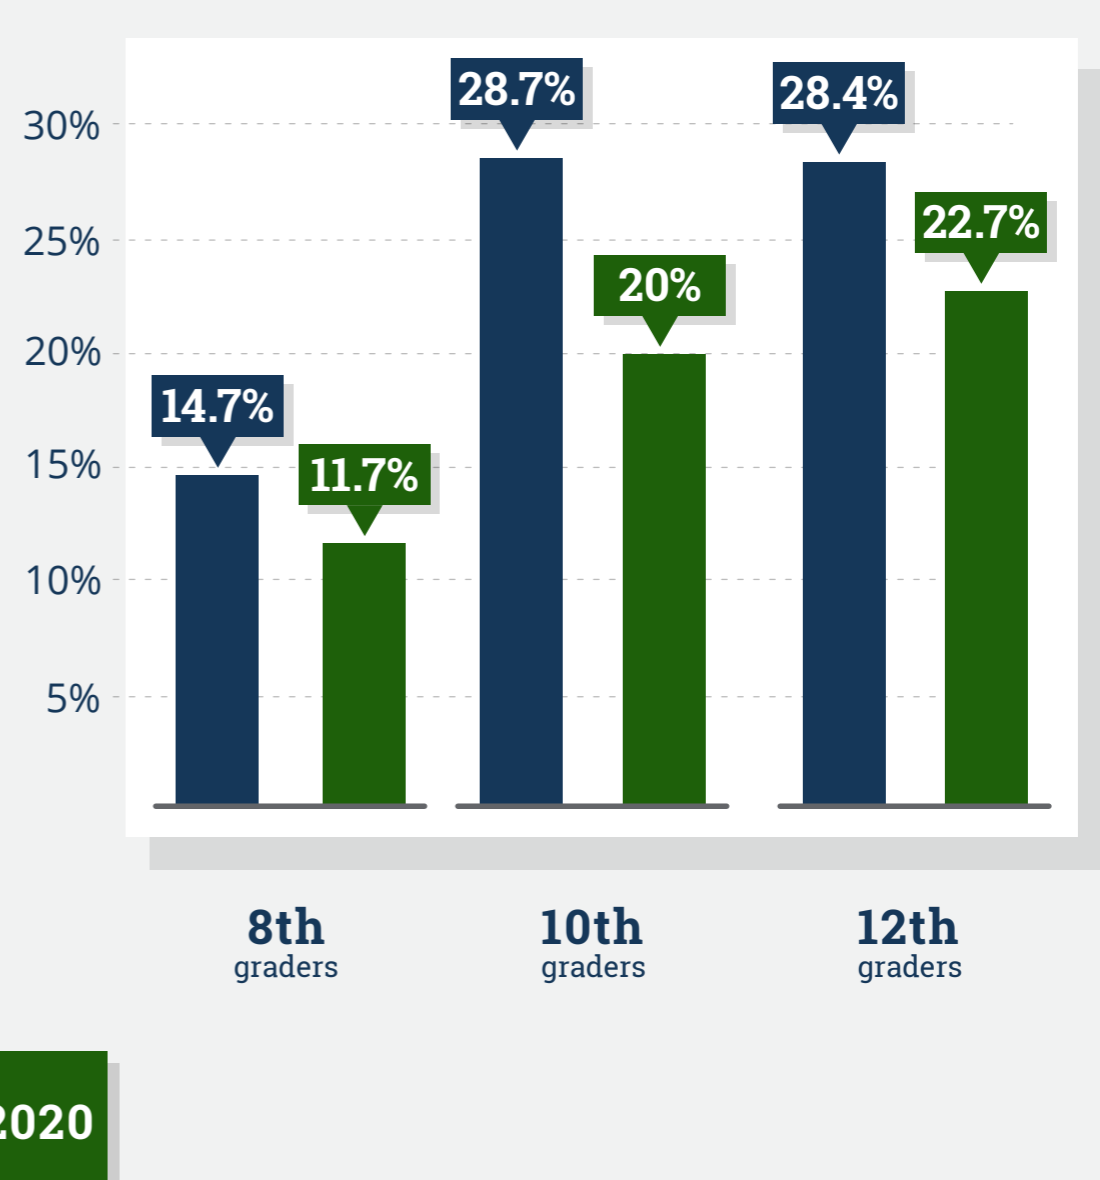

#### Past-Year Nicotine Vaping Held Steady
