

Drugs Uncovered:

What Parents & Adults Need to Know

*A Must-See Workshop for Parents, Caregivers,
and Adults Who Work with Youth*

Drugs Uncovered is an interactive program designed for parents, caregivers, and adults who work with upper elementary, middle school, and high school students. **Drugs Uncovered** introduces participants to:

- Current trends regarding alcohol, nicotine, cannabis, and other drugs.
- Health risks and other consequences associated with adolescent use.
- Techniques for building protective factors, including open communication and dialogue with adolescents.
